110 Kg. / m³ **Hardness**
45 Shore C **Weight**
2,2 Kg. / piece
(Borders included) **Borders included**
2 per piece

Material

EVA-based compound offering excellent resistance and long-lasting durability.

Surface colors can be selected as desired

The reversible dovetail interlocking system, together with the red and green surfaces, allows for customized color combination.

Easily washable

The material is easy to clean, ensuring the tatami remains hygienic even with frequent use.

Non-slip surface

The surface embossing features a cross pattern designed to improve both foot grip on the tatami and the tatami's grip on the floor.
